

# Introduction to Python in Environmental Sciences 2019

 The 3-day workshop will give a hands-on introduction to Python — modern open-source programming language with large community support.

 No previous Python experience is required!

 **Bring your laptop!**

 More info: <https://ueapy.github.io/pythoncourse2019>

## Schedule

Wed	22 May	09:00–17:00	Python basics and programming environment
Thu	23 May	09:00–17:00	Scientific data manipulation and plotting
Fri	24 May	09:00–17:00	Mapping and applied environmental science exercise

## Costs

 EnvEast DTP students: **free**

 UEA ENV students: **free**
